The unit of competency CPCCOHS1001A – Work Safely in the Construction Industry is designed for those seeking work or preparing to work in the construction industry. Successful completion of this unit is mandatory before beginning work on a construction site.

Allies Security Services has developed a training and assessment program that meets the requirements of the unit of competency. The unit of competency is nationally recognised and can only be delivered by a Registered Training Organisation (RTO) that complies with the governing standards of quality control and quality training and assessment.

Upon successful completion of the training and assessment, you will be awarded a Statement of Attainment indicating competency in CPCCOHS1001A – Work Safely in the Construction Industry.

The training program can also recognise your existing skills and knowledge. Recognition of Prior Learning (RPL) is a process where a participant’s existing skills and knowledge are matched against the requirements of the unit of competency. If the participant is assessed as already having achieved competency, the course may be reduced in duration. Additional information on our RPL process is available from the Allies Security Services Office.

This training program is delivered over one (1) day 6.5 hrs in a classroom environment at the Allies Security Services Training Centre.

To be eligible to enrol in this training program, participants must be able to read and write English to a sufficient standard to work with the supplied texts. Should you need support or assistance beyond our skills we will refer you to a suitable organisation to assist you further.

Our Refund Policy is detailed in our Student Handbook. Requests for refund should be addressed to Allies Security Services Office.

Our Student Handbook details our Policies and Procedures relating to Student Matters including complaints and appeal procedures, access and equity policy, issuance of qualifications and statements of attainment, and facilities.

Cost: Please check our “special offer tab” on our website www.alliessecurity.edu.au. We offer cheaper rates for the training if you pay before the course commences.
